Price, Utah 84501

Mr. Robert L. Clark
1750 South 900 East
Salt Lake City, Utah 84105

OCT 2 1989

Dear Mr. Clark:

We have received and reviewed your notice to conduct underground mining operations on the Miller and Miller Extension mining claim groups. We have no problem with the operation, but the following conditions shall be followed in order to prevent undue and unnecessary degradation and ensure successful reclamation.

1. Any portals shall be sealed upon abandonment.
2. All roads shall have water bars and/or any other necessary water-control structures installed in order to prevent excessive erosion.
3. Disturbed areas shall be restored to the original contour and scarified to a depth of three inches. The area shall be seeded between October 1 and November 30 with the following seed mixture at the rate of seven pounds per acre. If the seed is broadcast, a harrow or other such implement shall be dragged over the seedbed to ensure coverage.

Grasses, Shrubs & Forbs/Species

Pounds Per Acre

Indian ricegrass	<u>Oryzopsis hymenoides</u>	3
Galleta grass	<u>Hilaria jamesii</u>	2
Fourwing saltbush	<u>Atriplex canescens</u>	1
Yellow sweetclover	<u>Heliotropium officinalis</u>	1
	Total	7

4. The San Rafael Area Office shall be notified at least 15 days in advance of any proposed activities outside of the area included in this notice as there is an unusual concentration of cultural sites in the area.

5. An onsite examination of the operation shall be held before November 30, 1989, and shall include the claimant and members of the San Rafael Resource Area staff.

If you have any questions, contact Neil Simmons of my staff at 801-637-4584.

Sincerely yours,

Blaine A. Miller
